

# GR9M

9" HYDRAULIC ANGLE GRINDER

3200 RPM - 15 lbs

The GR9M is a quiet, powerful, and reliable angle grinder used for top, face and side grinding, cutting and cleaning in all underwater applications

Manufactured to exacting standards to deliver maximum efficiency, the GR9M has a high torque gear motor which directly drives a 5/8-11 threaded spindle. It has an adjustable 9" guard that accepts either 7" or 9" discs as well as other accessories for cutting, grinding, buffing, polishing .

A plastisol covered handle transmits very little heat and provides a more comfortable grip. The convenient, two position assist handle provides a comfortable handling position from the valve handle.

The GR9M also comes standard with quick disconnect couplers.

The HDI logo features the letters 'HDI' in a bold, white, serif font with a thick black outline. A red swoosh underline is positioned beneath the letters.
